OBJECTIVE

Aspiring full-stack/front-end developer with expertise in JavaScript and React.js, specializing in responsive web development. Proven track record in efficiently resolving challenges and contributing to the completion of complex projects. Eager to join a dynamic team, applying skills in a challenging role as a Full Stack or Front-end Developer to deliver optimal solutions and foster growth in a fast-paced environment.

EDUCATION

Bachelor of Computer Application, KLE's University 2022

SKILLS

Programming Languages	JavaScript
Web Development	HTML, CSS, React.js
Backend	Node.js, Express.js
Database	MongoDB, MySQL
Tools	Git, VS Code

CERTIFICATION

Full Stack Development, UpGrad ([View certificate](#)) 2022

EXPERIENCE

Full Stack Developer Intern Apr 2023 - Oct 2023
Taskmo Bengaluru, KA

- Engineered a dynamic CRM dashboard using React.js, implementing responsive front-end components and applying CSS libraries (react-strap, Bootstrap, Material-UI) for consistent styling.
- Integrated multiple APIs for real-time data retrieval, significantly enhancing dashboard functionality and data precision.
- Orchestrated global state management through Redux, improving user experience and facilitating seamless data flow within the application.
- Collaborated closely with UI/UX designers to translate design elements into the implementation efficiently.

PROJECTS

DRIPSNEAK - E-commerce Platform Developed a responsive e-commerce platform using React.js, HTML, CSS, and Material-UI, ensuring seamless online shopping experiences. Implemented end-to-end user authentication for enhanced security and engagement. Engineered dynamic product listings with advanced filtering options, integrating robust cart and Wish-list systems for optimized user interaction and increased conversion rates. ([Try it here](#))

Movie and TV Series Information Website Designed and developed a web application with React.JS, Bootstrap, and Material-UI to showcase movie and TV series information along with trailers. Implemented a user-friendly search functionality for easy navigation, leveraging API integration for efficient data retrieval and display. Ensured a responsive design across various devices, demonstrating proficiency in front-end technologies. ([Try it here](#))

Notes/To-Do List Application Designed and implemented a Full Stack Notes/To-Do List application showcasing expertise in React.js, CSS, Bootstrap, Node.js, and Express. Developed a seamless and visually appealing user interface, ensuring an optimal user experience. Established a secure back-end, incorporating robust user authentication and authorization features for enhanced security. Implemented CRUD operations for efficient task and reminder management. Utilized MongoDB for data storage and incorporated JWT, salt techniques. ([Try it here](#))
